EDUCATION

University of California, Riverside - Riverside, CA

Expected: Jun 2027

Pursuing BS, *Computer Science with Business Applications*

Antelope Valley College - Lancaster, CA

Jun 2022 - Jun 2025

AS in *Computer Science, Mathematics, & Physics*

WORK EXPERIENCE

Neurogica Inc. - Tokyo, Japan

Jun 2026 - Aug 2026

Software Engineer / Machine Learning Intern

- Owned the development of an interactive model comparison application, delivering a functional product within two months by organizing requirements, prioritizing features, and incorporating stakeholder feedback.
- Kept multiple project deliverables on track by managing priorities, documenting progress, and communicating updates during weekly meetings with supervisors and mentors.
- Improved project alignment by regularly presenting progress, gathering feedback, and adjusting project direction based on team priorities and technical requirements.

HexHomes - Riverside, CA

Mar 2026 - Jun 2026

Full-Stack Developer Intern

- Collaborated with marketing and developers to translate business needs into technical requirements and track delivery.
- Supported timely feature delivery by communicating updates, resolving blockers, and coordinating changes with the team.

The City of Palmdale - Palmdale, CA

Oct 2021 - Dec 2021

Traffic Engineering Intern

- Coordinated setup and monitoring of 50+ traffic counters, ensuring reliable data collection for engineering projects.
- Collaborated with engineers to deliver reports and documentation on schedule, supporting consistent project execution.

LEADERSHIP & INVOLVEMENT

AVC STEM Club

Aug 2024 - Jun 2025

- Led a 4-member team to build a JavaScript trivia website for a 50+ attendee event, increasing engagement by 40% through effective coordination and feature delivery.
- Coordinated between developers and event organizers to ensure smooth deployment and maintain team accountability under tight deadlines.

UCR Cutie Hack

Nov 2025

- Collaborated with a 4-member team to plan and deliver a student-organization web app within a 12-hour sprint, coordinating features and responsibilities under a tight deadline.

Association for Computing Machinery (ACM) at UCR

Jan 2026 - Jun 2026

- Collaborated with a 4–6 member team to plan and deliver a full-stack website, coordinating responsibilities and feature development across the project.
- Supported organized project execution by tracking progress through GitHub, communicating updates, and resolving blockers with team members.

PROJECTS

Flight Price Tracker (Python, JavaScript):

Jan 2026

Developed an automated flight price tracking solution that reduced manual search time by 80% by delivering real-time price alerts through email and SMS.

Song Sortify App (Python, JavaScript):

Mar 2026

Developed a music organization platform that reduced manual playlist sorting by ~80% by automatically categorizing users' liked songs into personalized playlists.

SKILLS

- **Project Management:** Project Coordination, Requirements Gathering, Feature Prioritization, Stakeholder Communication, Cross-Functional Collaboration, Progress Tracking, Documentation
- **Technical & Data:** Python, JavaScript, SQL, Java, C++, Data Analysis, Data Visualization, AI/Machine Learning
- **Tools:** Git, GitHub, AWS, Microsoft Excel, Google Workspace, React, Streamlit
- **Strengths:** Leadership, Communication, Organization, Problem-Solving, Analytical Thinking, Adaptability, Time Management
